FIRE CALL WANTED.

WHILE everyone is talking of the fire this week would it not be a good idea to have some system of signals established among the different manufacturing enterprises of the town from which the people would understand at once what and where the trouble was and prepare themselves for the work they are called on to perform. We do not have much influence in things generally, more often being opposed than assisted in what we undertake, but we revive courage enough to suggest that something of the kind may be done. Possibly fire may break out somewhere in town where delay may endanger life. In event of a regular fire signal being sounded everyone could snatch up a bucket and hasten to the rescue, and thus save valuable time lost in trying to discover the reason for the call. There are not any too many buildings in this town now to allow any of them to burn for lack of prompt assistance, and the fire of Thursday night had plenty of time to have gained a great deal more headway, perhaps too much to check, during the time lost in locating the trouble.

Let the present system of one long blast adopted by the handle works for a flood alarm, be augmented by a general fire call, using a system of short sharp vigorous whistles, and let this system be adopted by every manufacturing enterprise in the city.

SINCE the Statesman Democrat denies all allegations and references made as to its present position in county politics, an inquiring public rises to know on just platform it is running. Can it be a gold democrat we want the post-office platform. Write a good big, double column editorial about this, soony.

THE Farmers' Institute seems to have aroused interest in fruit growing in the county. This is one of the points for which we have long contended, and with the advent of good roads a new field will be opened to our farmers which the success of Bradley county under like conditions proves a money making pursuit.

Attention is called to the plain, straightforward statement of F. M. McCullough regarding his candidacy. He leaves the matter entirely to his party, deciding as it decides. He has an enviable record for fearless discharge of duty, and on that basis alone, if nominated, he will run a race hard to follow.

THE Statesman Democrat will not assist Lieut. Peary to discover the North Pole, but will nose around and make other discoveries.

Dragged-Down Feeling

In the loins.
Serruousness, unrefreshing sleep, despondency.

It is time you were doing something. The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble.

Hood's Sarsaparilla
Acts with the most direct, beneficial effect on the kidneys. It contains the best and safest substances for correcting and toning these organs.

THE POLITICAL GAME.

The split in the democratic ranks over the question of endorsing McMillin or Bate still continues, the bolters or rather those who remained after the McMillin crowd declared things adjourned, possess organization with N. B. Moore, of Whitwell, as chairman, and Jones Beene, of South Pittsburg, secretary, and a County Executive Committee of leading citizens as published in these columns. The rest of the party who logically should be denominated the McMillin division, as all the opposition to Bate came from members of it, have as chairman T. A. Hayron, of Jasper, and no county executive committee has been yet appointed, that we know of.

The result of this peculiar state of affairs is that we have two candidates for the legislature in the county, J. A. Heard, of South Pittsburg, who is an acknowledged Bate man, and D. T. Layne, of Whitwell, who is said by some to be for McMillin, but who declares himself to be of no feelings in the matter and willing to be instructed. He declared the same thing previous to the convention, and if the desire of the convention, barring that of the claqueurs, had been taken would have received instruction for Bate, and the whole matter settled harmoniously. As it was a rupture was occasioned by the McMillin powers summarily declaring the convention adjourned, and hence the organization of the Bate men.

McMillin's supporters are now talking primary, but common opinion has it that should it come to a vote that they would be defeated. Still they have another card up their sleeve, and it is hinted that it is solely on the matter of organization, of which they are desirous of obtaining the control.

The game of politics is a seething vortex which has engulfed several, and the indications are that it will take in several more before the play is ended.

THE Statesman Democrat should go to a Sunday school and cultivate a chaster method of expressing its ideas. "Falsehood" or its equivalent "lie" are not current in polite society, though they may be every day terms with that esteemed journal.

THE wise heads of the democratic party of this county will bring about an adjustment of the present difficulties, but so doing will not be dictated to by the penny trumpet blowers.

It is to be hoped the fruit trees will not be classed among the ornamental flora this year.
